ACCELERATES SUPPLIER'S PERFORMANCE

The Hilniva AP solution provides both internal AP professionals and suppliers' AR professionals with an interactive collaboration environment that enables sharing of invoices, credit and debit memos and other related documents and communication over the web.

By integrating the relevant documents and invoices chronologically with the complete communications history, Hilniva AP allows management and department staffs to easily and expeditiously resolve any issues and disputes related to the suppliers' invoices. Further, with Hilniva AP's communications and information capabilities customers optimize cash flow and avoid the time delays in receiving products and services in timely manner.

**Make a big difference
in YOUR
bottom line**

PLUG AND PLAY SOLUTION

The Hilniva AP solution is a cloud-based software service. It easily integrates into an existing ERP system with a supplied connector, and eliminates costs of infrastructure and software licenses as there are no additional servers and software required.

ASSURES COMPLIANCE

The Hilniva AP solution automatically archives all communications, shared documents, purchase orders, suppliers' invoices chronologically per purchase order in a secured environment. It also reduces time and cost spent on retrieving information.

IMPROVES OPERATING EFFICIENCY

Companies are not able to take advantage of suppliers' discounts, since it involves a lot of transaction management. Hilniva AP streamlines the process with proper notification and workflow to AP department by identifying those invoices due for advance payment, estimated discount to be availed if the invoice is paid within the given timeframe.

- ✓ Supplier invoices are OCR'd for easy and accurate invoice transactions
- ✓ OCR reduces data entry work tremendously for creating invoices in the system
- ✓ Suppliers' discounts are managed when payment is paid before due date
- ✓ Automated discount calculation and workflow driven notification
- ✓ Credit card and ACH payments with banks

EASY AND QUICK DEPLOYMENT

Seamless integration with major ERP solutions such as SAP, PeopleSoft and Oracle.

Supports frequently used office document formats (XLS,DOC,TIF,PDF etc.) with industry standard encryption methodology.

1

Purchase Orders Payable
